PROFILE

Highly motivated Frontend Developer with over four years of hands-on experience in building responsive, user-friendly web applications. Skilled in modern web technologies including HTML5, CSS3 (SASS, Tailwind), and JavaScript, TypeScript, React, with a focus on clean code, performance optimization, and seamless user experiences.
Proven ability to collaborate with teams and deliver solutions through efficient Git-based workflows. Passionate about staying updated with the latest frontend trends and continuously improving my skill set to solve real-world problems.

EXPERIENCE

Frontend Developer (Student Projects & Freelance Work)
2019 - Present

Throughout my studies and work on various projects, I have gained a wide range of knowledge in frontend technologies and tools:

- Responsive Web Design: Created mobile-first, responsive interfaces with CSS Grid, Flexbox, and Tailwind CSS.
- JavaScript, TypeScript, React: Developed interactive components, mastered DOM manipulation, andstate management in React.
- HTML5 & CSS3: Clean, semantic HTML and styled components using SASS.
- API Integration: Communicated with REST APIs and handled asynchronous data processing.
- Git & Version Control: Managed version control with Git for team collaboration.
